Using a working set limited to 1050 pages and 87 pages of data storage (excluding image)

Total number object records read (both passes): 740  
of which 301 were in libraries and 31 were DEBUG data records containing 2440 bytes

Number of modules extracted explicitly = 6  
with 8 extracted to resolve undefined symbols

36 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
